Closing Note

Message from the Principal

Dear Parents and Guardians

As we close the month of October, my heart is full of gratitude and pride for all that our learners, teachers, and parents have accomplished together. This has been a season of growth, resilience and shared vision.

To our Grade 6 and 9 learners, thank you for the dedication and maturity you have shown as you prepare for your national exams. The Prayer Day held in your honor was a powerful reminder of what can be achieved when faith, family, and focus come together. To our parent representatives who graced the occasion, thank you for standing with us and for your constant encouragement and prayers.

To our CBE learners, as you head into your well-deserved holiday, carry with you the lessons, laughter, and friendships you have built this term. Keep your curiosity alive, continue reading, exploring, and dreaming.

I also want to appreciate our teachers and support staff whose commitment and care into every classroom and activity. Together, we continue to create a nurturing space where learners thrive in spirit, wisdom, and grace.

Robotics Showcase

Innovation isn't optional, it's essential. This month, we were excited to share in the progress of our RSA Robotics Club, where learners continue to grow from curious beginners to confident innovators through three progressive levels of coding and robotics.

Level 1

Scratch

Learners built a Galaxy System while developing creativity, logic, and storytelling through code.

Level 2

HTML

Students designed a School Website, strengthening their digital design and coding structure skills.

Level 3

Expert

Our advanced learners simulated Smart Traffic Lights and Smart Bins, developing real-world solutions for smart cities.

At every stage, our learners demonstrated critical thinking, teamwork, and creativity. We are proud to see them not just learning to code, but learning to think, solve, and innovate.

Skating Club Certification

Congratulations to our **Skating Club**, comprising learners from Grades 1–5 and Stages 1–4, who received official certification following their outstanding win last month at At Oshwal primary Academy Skating Tournament. Their perseverance, discipline, and passion continue to make us proud. Here’s to more milestones on and off the rink.

Jeremy Park Reopens

We're happy to share that **Jeremy Park**, our play area for young learners, has officially reopened after renovation. The space is now safer, brighter, and better suited for play and exploration. It's been wonderful seeing our children enjoying the park again. A beautiful reminder that learning also happens through play.

PP2 Learning Adventure

Our PP2 learners had a fun-filled day during their shopping trip to the prestige Naivas supermarket. They learned valuable lessons about budgeting, making smart choices, and buying what is necessary, all while enjoying the excitement of a real-world learning experience.

It was wonderful seeing our little ones having fun during their shopping day, applying what they've learned in class and growing in confidence and independence.

Thank-you to our teachers for guiding them with such care, and to our parents for your continued support in making these learning moments possible.

RSA Shines at the Dar es Salaam Debate Championship!

What a remarkable milestone for RSA. Our debate team emerged victorious at the Dar es Salaam Debate Championship, proudly bringing home both the Junior and Senior Main Cup Trophies.

We were also honored as the Best Overall International School, a recognition that fills us with lasting pride and gratitude. Our young debaters demonstrated exceptional confidence, eloquence, and teamwork, a true embodiment of the RSA spirit, where every learner's voice is valued and leadership begins early.

Our congratulations go out to our debaters, coaches, teachers, and parents for their unwavering dedication and guidance. Your passion and commitment continue to inspire excellence within our community.

Closing Note

As we close October, we wish all our CBE learners a restful and refreshing holiday. We encourage parents to keep the spirit of learning alive by helping your children explore new stories and ideas through **Snapplify**.

Get started Its easy

- 1 Download the Snapplify Reader App.
- 2 Visit getsnapplify.com to install the app and log in.
- 3 Start reading — books can even be enjoyed offline, making it perfect for home, weekends, and holidays!

Let's continue nurturing a love for reading and curiosity beyond the classroom, one page at a time.

Our Cambridge (CI) learners will remain in school, continuing their learning journey with enthusiasm and purpose.
